RISE UP ABOVE YOUR COMPETITION WITH OUR IP CLOUD PLATFORM

PLATFORM

THE WAY UP FOR BUSINESS COMMUNICATIONS

Avaya and Telanet help organizations across Canada succeed by integrating superior cloud-based communications solutions with business strategy and operations.

As a global leader in our field, Avaya provides the most complete portfolio of cloud-based software and IP communications services for companies seeking greater business momentum, flexibility, security and savings.

IMPLEMENT WITH EASE THROUGH TELANET SUPPORT

A journey to the Cloud begins with Telanet, who has been an implementation and beta testing partner with Avaya for the past five years.

Telanet's technology experts will work closely with your leadership and IT teams to customize an Avaya Cloud solution that will propel your business forward — with on-call assistance every step of the way.

SOAR UP TO THE CLOUD

Canadian business owners: get out of the weeds — and closer to the sun. Here are four ways Avaya's Cloud Communications platform can lighten your load, brighten your prospects and take your business farther:

LOOK UP

and plan with foresight leveraging 360 degree views of your business, your clients and the competitive landscape.

FREE UP

your time and resources to focus on what matters most — and do business anywhere and anyway you choose.

SCALE UP

as you evolve — or down as you downsize — with the flexibility to quickly adapt to the ebbs and flows of your business.

PARTNER UP

with our industry-leading experts who make the transition effortless — and are there to support you 24-7
